DETAILED ACTION

Claims 109-133, 136-146, 149-159, 162-172 and 175-189 are pending in the present application.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 28 January 2003 has been entered.

Double Patenting

Claims 108-133, 136-146, 149-159, 162-172 and 175-185 stand rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 135-199 of Application No. 09/354,883, now US Patent No. 6,303,379. This rejection is maintained for the reasons of record in the Office Actions mailed 17 January 2001 and 07 August 2001. Although the conflicting claims are not identical, they are not patentably distinct from each other because each set of claims is drawn to primary or secondary cells comprising a nucleic acid encoding a protein and methods of producing the cells. While the present claims are limited to erythropoietin while the claims of US Patent No. 6,303,379 are drawn to any therapeutic product. It would have been obvious to one of skill in the art to use the therapeutic product, EPO, in the present method.

Conclusion

This is a continuations of applicant's earlier Application No. 09/328330. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
